

Thirsch

New eco-friendly grape variety!

SOUVIGNIER GRIS 2021 & PINOT BLANC

New fungus-resistant grape variety (PIWI).
Cultivated at the National Viticultural Institute in Freiburg (DE) from the Seyval Blanc (♀) and Zähringer (♂) grape varieties. Reduction of pollution to the environment (80 to 90% less spraying).

Thirsch wines:

Thirsch wines are full-bodied, with a unique style and reflect our way of working with nature.
Thirsch is the historical name of our farm and winery.

Vineyard:

5-10 year old vines grow on Opok soils.
"Opok" is a solidified sedimentary rock, formed by marine and river deposits.
The soil has a high clay content, can absorb warmth well and provides optimal ripening conditions for the grapes.

Winemaking:

Short maceration, fermented and aged 22 month in wooden barrels on the fine lees. Cuvée with PINOT BLANC (40%). Bottled unfiltered in September 2023.

Organic wine:

Pinot style.
13.5% alcohol - 1.1 g/L residual sugar - 6.2 g/L acidity.
